Xquizit Limousines

Dear Anne,

I am writing to thank you for your generous support of Wahine Toa 2009.

As you know Wahine Toa is an annual programme that we run for girls who have been victims of sexual abuse.

The main aims of the four day three night course are to help improve the self-esteem and self-worth of the participants and encourage them to set goals for the future as well as giving them valuable life skills.

This year's programme that ran in October was a resounding success. We can attribute part of this success to your input.

Over a 3 day period we were gradually teaching the girls presentation skills. On the Thursday they all received a haircut and had make-up applied before getting dressed to go to dinner....then they saw the limousine drive in.

The screams were deafening and the excitement very obvious once they realised the limo was for them.

The girls told us they felt like movie stars when you were driving them to and from dinner and also when you took them for a tour through town.

Thank you once again for your support, we truly appreciate it.

Kind regards
Robert Tier
